

ISIS - Feature #1779

Sync LROC SPICE kernels

2013-10-16 10:56 AM - Jeff Anderson

Status: Closed	
Priority: Block	
Assignee: Stuart Sides	
Category: Infrastructure	
Target version: N/A	
Impact: LROC science team members can not process data with ISIS because they lack the kernels.	Software Version:

Description

Ensure the rsync servers have the latest SPICE kernels available. This may not be possible until other NASA agencies are reactivated due to shutdown (Goddard, NAIF, etc). Need to check with LROC team on access to the kernels.

History

#1 - 2014-05-16 09:52 AM - Kris Becker

- Assignee set to Stuart Sides

- Target version set to N/A

Work with ASU/LRGO team to resolve kernel configuration they have implemented on their local systems and prepare for ISIS 3.4.6 release.

#2 - 2014-05-30 02:34 PM - Stuart Sides

- Status changed from New to Resolved

All LROC kernels are being updated to the rsync serves nightly.

#3 - 2014-08-06 11:33 AM - Stuart Sides

- Status changed from Resolved to Closed

Close with Kris B. permission.
