

ISIS - Documentation #2241

kaguyasp2isis -- listed under Utility instead of under Kaguya in the online documentation.

2015-04-03 11:46 AM - Moses Milazzo

Status: Closed	
Priority: Normal	
Assignee: Tyler Wilson	
Category: Applications	
Target version: 3.4.11 (FY16 R1 2015-10-28 Oct)	
Impact: This fix will not impact upon any programs in ISIS.	Software Version:
Description	
The kaguyasp2isis program currently has the incorrect categoryItem in its xml document. It is currently "Utility" but should be "Kaguya." This is a simple fix.

Lisa will make updates to the documentation; I'll check in those updates.

#3 - 2015-05-13 02:26 PM - Stuart Sides

- Target version set to 3.4.10 (FY15 R3 2015-07-23 Jul)

#4 - 2015-06-02 12:51 PM - Moses Milazzo

- Status changed from Acknowledged to In Progress

#5 - 2015-08-13 11:40 AM - Kristin Berry

- Status changed from In Progress to Acknowledged

- Assignee deleted (Moses Milazzo)

- Target version changed from 3.4.10 (FY15 R3 2015-07-23 Jul) to 3.4.11 (FY16 R1 2015-10-28 Oct)

Unassigned and rescheduled to Q4.

#6 - 2015-08-18 02:33 PM - Stuart Sides

- Category set to Applications

- Status changed from Acknowledged to Assigned

- Assignee set to Tyler Wilson

#7 - 2015-08-19 03:37 PM - Tyler Wilson

- Impact updated

The problematic XML line is: Utility

The tag in the XML document was changed to the tag, so that the kaguyasp2isis program would not appear under a list of Core programs for ISIS, but instead appears with kaguyami2isis and kaguyac2isis under Mission Specific programs in the documentation. The 'Utility' value originally assigned to the tag was changed to Kaguya.
