<b>Description</b> The PvlFormat and PvlFormatPds classes need to put quotes around strings that contain the PVL reserved characters. See section 2.1.1.2 Reserved Character Set in PARAMETER VALUE LANGUAGE SPECIFICATION (CCSD0006 and CCSD0008) for more information. The list of characters is "&<>{} ,[]=!#()%+";~ ". Special chare needs to be taken not to harm hirise output or the sequence capability in the PVL readers/writers
