- Assignee changed from David Miller to Stuart Sides

**#6 - 2015-08-27 11:24 AM - Kristin Berry**

- Assignee changed from Stuart Sides to Kristin Berry

I fixed this while making another change to SpicePosition. It's in the LEISA-smile branch, which will be merged with trunk before the next ISIS release. I'll keep the ticket open until soon before the merge happens.

**#7 - 2015-09-30 10:45 AM - Kristin Berry**

- Status changed from In Progress to Resolved

To test/check, setisis to /work/users/kberry/LEISA-smile/isis or just look at /work/users/kberry/LEISA-smile/isis/src/base/objs/SpicePosition/SpicePosition.cpp

**#9 - 2015-09-30 10:47 AM - Jean Backer**

- Status changed from Resolved to Closed

**#10 - 2015-09-30 02:09 PM - Kristin Berry**

- Impact updated

There's no svn checkin specifically associated with this ticket because it will be resolved with the merge of the LEISASmile branch into trunk, which should be happening soon.

I spent some time trying to add test coverage that includes the error messages I changed, but it seems to be impossible to get to the places where the error-messages are thrown unless I spent a lot of time creating corrupted test data.
