

## ISIS - Bug #5231

### Make html failing (libiconv missing) prog25

2017-11-13 11:10 AM - Ian Humphrey

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b> Makayla Shepherd	
<b>Category:</b> Infrastructure	
<b>Target version:</b> 3.5.2 (2017-01-31 Jan)	
<b>Impact:</b>	<b>Test Reviewer:</b>
<b>Software Version:</b>	
<b>Description</b>	
The doxygen binary for prog25 in v007 links against libiconv but says "Not found" when running ldd.	
prog21 and prog24 do not have their v007 doxygen binaries link against libiconv.	
Doxygen needs to be fixed on prog25 so we can build documentation on prog25.

- Status changed from Acknowledged to Closed
- Assignee set to Makayla Shepherd

We upgraded to doxygen-1.8.14. The upgrade fixed the problem
